DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-5 are rejected under 35 U.S.C. 101 because they disclose a claimed invention that is an “abstract idea” as define in the case *In re Warmerdam*, 33, F.3d 1354, 31 USPQ2d 1754 (Fed. Cir. 1994).

Analysis: In claims 1-5 the invention is to found in the technological art since the invention is to be practiced by using a computer. Each of the claims is collection of data structure and does not involve in more than a manipulation of abstract idea and mathematical construct. Applicant presents no substance upon which the claimed invention acts and on this basis examiner believes that it is merely a manipulation of abstract idea and its functionality cannot be realized. Thus claimed invention is directed to non-statutory subject matter and claims 1-5 are rejected under 35 USC § 101.
